

VELIKO EP GREASE SERIES VELIKO LUBRICANTS

VELIKO EP GREASE is premium quality lithium based greases containing Extreme Pressure additives which confer excellent shear stability and high load carrying ability. These are suitable for situations dictating the use of extreme pressure grease, particularly, those subjected to shock loads at temperatures up to 130 degree Celsius.

PERFORMANCE BENEFITS

- Reduces friction
- Extend Bearing Life
- Increase lubrication intervals
- More Energy Efficient
- Water Efficient
- Prevent Seizure

PERFORMANCE STANDARDS

- Meets IS:7623:1993, EP Type
- IPSS:1-09-005-99

APPLICATIONS

Recommended for all plain and roller bearings in equipment operating under severe shock loading conditions and temperatures up to 170 °C

TESTING SPECIFICATION

GRADE	EP-00	EP-01	EP-02	EP-03
Physical Structure	Smooth & Buttery Slurry	Smooth & Buttery Semi Slurry	Smooth Medium Loose	Smooth Standard Light
Soap Type	Lithium	Lithium	Lithium	Lithium
NLGI Grade	00	01	02	03
Additive	EP Additive	EP Additive	EP Additive	EP Additive
Drop Melting Point	140 °C	150 °C	180 °C	185°C
