

VELRUST-1500

“VELRUST-1500” is used as rust preventive oil in metal industries.

FEATURES

- It is total oil based formula doesn’t contain any solvent.
- The film coating is non drying adhering oily Based.
- It is easily removable and doesn’t react with metal and its finishing quality.

BENEFITS

- Easy in operations, handling, storage. No possibility of hazardous accidents.
- Easy removal by MTO or kerosene
- Oil film gives dual effects lubrication as well as rust prevention.
- Doesn’t react with metals.

APPLICATIONS

Recommended for final packing stage. It is used where oil coating as well as lubrication properties needed like ball bearing, precise threaded items.

PERFORMANCE SPECIFICATION

These product meet and exceed BIS 1154-1957 Specification.

TESTING SPECIFICATION

Sp. Gravity @ 30°C	0.89-0.90
Flash Point COC °C min.	140-170
Drying Type	Oily
Film Thickness in Microns	4-6.5
Coverage M ² /Ltr	100-110
Film Appearance	Non Drying Adherent Oily
Effective Periods(Weeks)	Indoor (40-45) Outdoor(20-25)
